Profile Summary

I started web design at the age of 13 and have been passionately learning and gaining experience over the past four years. In the last two years, I have worked professionally on various projects, improving my skills in web design and development. I am currently studying Computer Science and plan to continue my studies up to a Master's degree. My goal is to combine academic knowledge with practical experience to deliver creative and practical solutions in web design and development.

Work Experience

May 2024 - June 2024

Front-End Developer

KTT Co

Tehran, Iran

Tasks and Achievements

Designed and developed main website pages focusing on modern and user-friendly UI, including interactive sections and dynamic forms, along with updating and optimizing the admin panel to enhance manager productivity.

Ensured full responsiveness of the website across all devices and browsers, optimized loading speed, and improved user experience for all visitors.

August 2024 - December 2024

Front-End Developer

NextWeb Co

Gilan, Iran

Tasks and Achievements

Developed and implemented main website pages with modern and interactive design, including animations, dynamic forms, and engaging elements to enhance UI attractiveness and usability.

Optimized the website for all devices and browsers, improving loading speed and user experience, creating a smooth and pleasant interaction for visitors.

Collaborated closely with the design and content team to ensure consistent colors, fonts, and layouts, providing creative solutions for design challenges.

June 2025 - July 2025
